		192.168.10.0 to 192.168.49.255 192.168.51.0 to 255.255.255.255
Internal	inside (172.16.0.1/255.255.0.0)	10.0.0.0/8 172.16.0.0/15 192.168.2.0 to 192.168.5.255

IPSec VPN Tunnels

The following remote networks are reachable through IPSec VPN tunnels. These networks may represent remote sites, partner networks or datafeeds.

No remote networks are reachable through IPSec VPN tunnels.

Policies Passing Through Firewall

This section lists source and destination addresses for all IP services that are allowed to pass through the firewall device. The list of allowed services is grouped by each output interface from which the allowed IP traffic leaves the firewall.

Policies from Firewall

This section lists destination addresses that are the origin of all IP services that are allowed to connect from the firewall device itself. The list of allowed services is grouped by each interface from which the IP traffic leaves the firewall.
